1. Objectives-

Taking into consideration the students' needs through their feedback is an essential function of the college. Core values relevant to national and global trends underlie the varied course options offered by the college. Focus is made in respect of academic flexibility with emphasis on career orientation, to develop multifarious employability skills, our focus on stakeholder involvement and response to the curriculum through feedback completes our core principles.

The systemic feedback analysis helps in updation of curriculum, syllabi and course content therein leading to an acceleration in and improvement of the education system. Attention is paid towards constant updation of syllabus design so as to focus on aspects of our theoretical and practical modules of academic growth and employability.
