Content:

- 1. Objectives**
- 2. Survey Methodology**
- 3. Participants Detail**
- 4. Analysis of Survey**
- 5. Findings and Survey Results**
- 6. Remarks**

1.Objectives-

One of the significant responsibilities of college is Curriculum Design and Development. College is considering student's needs and using teachers' feedback in the development of relevant programs to suit the student's

professional and personal needs. College introduces a wide range of program options and courses with certain core values that are in tune with the emerging national and global trends and relevant to the local needs. Apart from the wide range of academic flexibility, aspects on career orientation, multi-skill development, feedback system and involvement of stakeholders in the curriculum are updated to meet the expectations of students.

The objective of this feedback analysis is to collect data for our curriculum, syllabus and course content so that we can improve and accelerate in the main area of our education system. We want to focus on career-oriented syllabus design as well as on theoretical and practical aspects. Teachers play an important role in students' life because they interact directly with the students and know the problems and its solutions. so, their feedback is important for curriculum improvement and redesigning of syllabus.

2. Survey Methodology-

Govt. D.B. Girls' P.G. Autonomous college, Raipur, is conducting many feedbacks/surveys on continuous basis. Teacher's Feedback on Curricular Aspects is one among these surveys. This Feedback includes majorly the questionnaire about different programs curriculum of college. Apart from

these aspects, the Feedback has included the duration of classes and availability of books and study material.

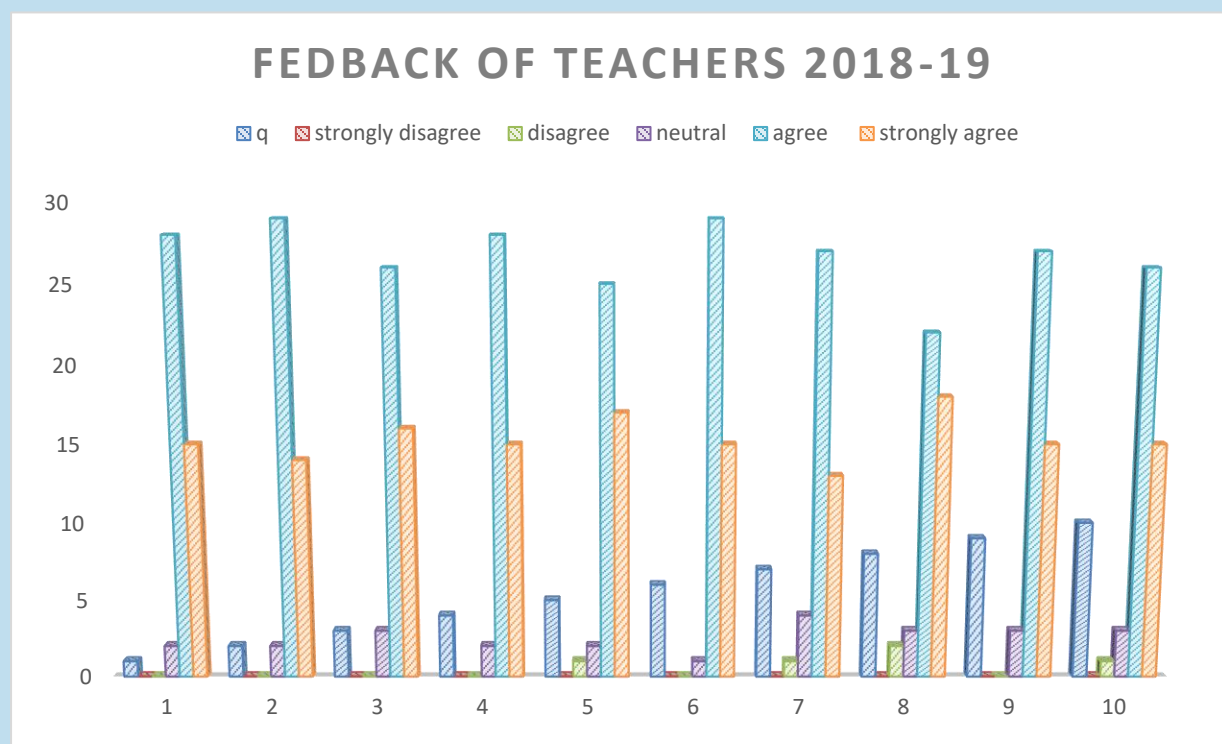

3. Participants Detail: -Total 45 Professors/Assistant

professors took part in this feedback survey. Teachers from all faculties and subjects get involved in it.
