1. Objectives-

Feedback loop is an essential component of an evolving system. The College has continuously been trying to adapt to the needs of the youth enrolled as students. Improvement and reforms have been witnessed in many aspects and such changes have been a regular feature of college governance.

However, it is extremely important to learn about actual student experience due to such reforms. The College has established a robust feedback system involving the stakeholders, in order to learn about the efficacy of reforms and process improvement.

Perception of parents about college curricular has been gathered through the current survey in order to get students' feedback on overall governance of the College. The survey is supposed to help in improving syllabus.

We implemented survey through (online) feedback form during the month of February 2023- to March 2023.
